How to submit an announcement:
Having an announcement read on GMA-TV has never been easier. We are happy to read any school announcement from clubs, to sports, to class changes, and more. Simply submit your announcement via email no later than the end of first period (approx. 9:00am) and our scriptwriters will be happy to add your announcement. Unfortunately, announcements submitted after this time risk not being aired.

How to appear as a guest on the program:
All appearance requests should be sent in the form of an email no later than the end of first period (approx. 9:00am) on the day you wish to appear. We do our best to honor all requests, but reserve the right to limit the number of appearances in a given broadcast. Due to the length of homeroom and the number of announcements, guests, and videos, on-air guests should attempt to limit their speaking time to 30 seconds. If you would like to prepare your material ahead of time and send it to us along with your appearance request, we are happy to display it for you on one of our teleprompters.

How to submit a video:
Videos can be submitted via email, OneDrive (or other storage application), on a flash drive, or external hard drive. All videos should be submitted in the MP4 format only. Videos submitted in other formats may not function correction in our production switcher and run the risk of not airing. We regret that we cannot air videos from Youtube, or copyrighted material, including, but not limited to, music in your video, other people's videos, and the videos of organizations with our prior consent.
